# What is Mjlsi?

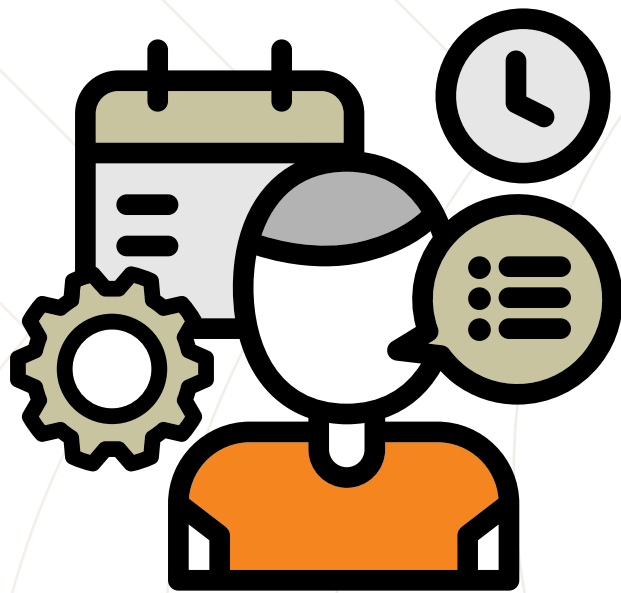

A system that creates and manages board meetings at all stages.

# What is Mjlsi?

# What is Mjlsi?

**Board Secretary**

**System Administrator**

**Board Members**

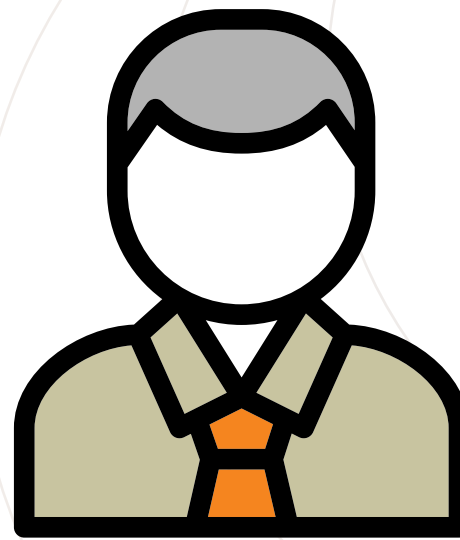

The system gives the Secretary of the board all the tools to organize meetings before it starts, during the meeting and after completion, and helps to organize and manage the structure and governance of the board of directors.

# What is Mjlsi?

Board Secretary

**System Administrator**

Board Members

The system allows the Chairman of the Board to control the progress of the meeting and monitor the steps of the meeting management and to ensure the process of information flow between members and data governance.

# What is Mjlsi?

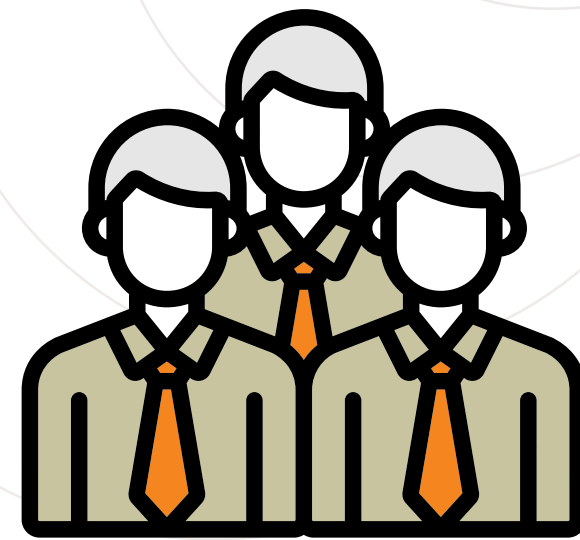

Board Secretary

System Administrator

Board Members

The system allows board members and guests to organize meeting times, ensure the sequence of meeting topics, vote and review files confidentially and easily.

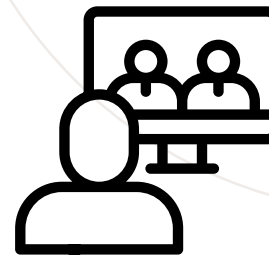

# Why Mjlsi?

**Improve  
Productivity**

**Cost  
Saving**

**Increased  
Flexibility**

**Reduce  
Error Rate**

# Smart . Simple . Safe Meetings

1

**Prepare for  
the meeting**

## System Administration

Basic Settings

User Management

# Users Categories

The system includes three levels of users:

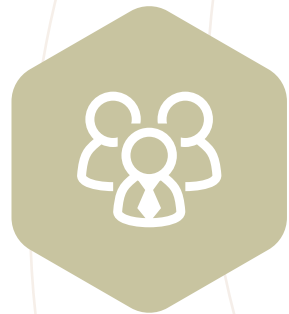

**System Administrator:**

It is the technical specialist who manage the system and licenses

**Board Secretary:**

He is responsible for managing the organization meetings and members

**Board members:**

They are the end users, including the Chairman and the rest of the Board.
